EXPERIENCE

Projects Experience

HTML, CSS and JavaScript   June 2023- Present

- Revitalized a law firm website through Figma, showcasing a high court legal services portfolio with seasoned lawyers and complimentary counseling, achieving a 30% increase in user engagement by implementing HTML, CSS, and JavaScript, while actively fostering communication with group members, peers, mentors, and tutors.
- Constructed a dynamic online shopping platform leveraging HTML, CSS, and Bootstrap, achieving a 40% increase in user engagement, and demonstrated effective leadership by fostering collaboration among team members and peers throughout the development process.
- Developed a fully functional Google form application registration prototype with HTML and CSS, showcasing proficiency in web development and demonstrating analytical and critical thinking abilities in collaboration with team members, peers, and supervisors.
- Designed and implemented a visually engaging portfolio website utilizing HTML exclusively, showcasing creativity and collaboration through effective teamwork with team members, peers, and supervisors.

United Pensions Trustees Limited, Accra, Ghana

Data Analyst   March 2022- November 2022

- Exemplified drive, determination, and ambition in implementing a data-driven approach to meticulously optimize marketing campaigns, leading to a remarkable 25% increase in conversion rates.
- In a harmonious manner, the team developed and deployed a predictive model for customer churn, effectively communicating insights with both teammates and peers. This collaborative effort led to a significant 15% reduction in attrition rates.
- Demonstrated effective leadership in the workplace by conducting meticulous data analysis, collaboratively identifying cost-saving opportunities with teammates, colleagues, and peers, resulting in a commendable 10% reduction in operational expenses.
- Portrayed effective leadership by collaborating with cross-functional teams, showcasing analytical and critical thinking skills to streamline data collection processes. This effort resulted in a significant 20% reduction in data entry errors, fostering a positive impact on both teammates and colleagues.
- Illustrated effective teamwork by participatively creating interactive Tableau dashboards to visualize key performance indicators, enhancing data accessibility. Leveraged strong interpersonal skills to foster collaboration among teammates, colleagues, and peers, resulting in streamlined strategic decision-making processes and a notable 40% reduction in search time.

Appsol Information System, Accra, Ghana

Data Entry Officer- Intern   August 2021- February 2022

- Through unwavering drive, determination, and ambition, attained an outstanding 99.5% accuracy rate in data entry. This achievement not only reduced errors by 25% compared to the previous year but also led to the creation of more reliable datasets.
- Leveraged strong communication skills to implement efficient data processing workflows, resulting in a 20% reduction in data input time and a commendable 15% boost in department productivity. Effectively collaborated with teammates and peers throughout the process.
- Demonstrated effective leadership within the team, fostering the development of data validation protocols that successfully led to a 30% decrease in data discrepancies, significantly enhancing overall data quality.
- Applied analytical and critical thinking to efficiently process and input 20,000+ records in diverse formats, ensuring seamless collaboration with teammates, colleagues, and peers to make critical data readily available for analysis.
- Collaboratively led quality control initiatives, fostering a team-oriented approach to achieve 100% data accuracy in financial records, resulting in a significant reduction of financial discrepancies by GHC100,000.
